CONTENTS

COVER PHOTOGRAPHS

January	Rainstorm seen from Nairobi National Park in Kenya, 22 April 1982, by Miss A. C. GARLAND
February	Funnel cloud looking northwards at Walls, Shetland, on 3 July 1982, by J. CASSON (see also p. 34)
March	Auroral display of 20 October 1981 photographed from Dougalston Estate, Milngarvie by D. A. R. SIMMONS (see also p. 66)
April	Wave cloud over the Vale of York on 26 October 1983, by B. D. SKILLINGS (see also p. 117)
May	Lighthouse at Portland Bill in Dorset, 5 April 1980, by K. O. MORTIMORE
June	Towering cumulus in the French Alps photographed in June 1973, by A. P. DAY
July	Orographic cloud observed over Coronation Island during the summer of 1976, by J. H. C. FENTON
August	Strobe effect of lightning showing cumulus growth, 27 September 1983, by W. LIVINGSTON (see also p. 240)
September	Cloud formation from California Coastal Highway on 24 March 1984, by A. BEST
October	Decaying cumulonimbus cloud over Lake Malawi in April 1982, by N. COOPER
November	Hurricane Diana seen by the GOES-E satellite, 12 September 1984 (see also p. 352)
December	Front cover: False-colour AVHRR infra-red image of the British Isles at 0417 GMT on 10 January 1982, as seen by the NOAA-7 satellite
	Back cover: Satellite pictures with colour pixels indicating levels of lowest temperature (see also p. 362)
